

Accepted Manuscript

A unified inversion scheme to process multifrequency measurements of various dispersive electromagnetic properties

Y. Han, S. Misra

PII: S0926-9851(17)30098-8
DOI: <https://doi.org/10.1016/j.jappgeo.2018.02.004>
Reference: APPGEO 3435

To appear in:

Received date: 22 January 2017
Revised date: 4 January 2018
Accepted date: 4 February 2018

Please cite this article as: Y. Han, S. Misra , A unified inversion scheme to process multifrequency measurements of various dispersive electromagnetic properties. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Appgeo(2017), <https://doi.org/10.1016/j.jappgeo.2018.02.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Unified Inversion Scheme to Process Multifrequency Measurements of Various Dispersive Electromagnetic Properties

Y. Han ^a, S. Misra ^{a,*}

^a University of Oklahoma, Mewbourne School of Petroleum Engineering, Norman, 73069, OK, USA

Emails: yifu@ou.edu

Short title: Parametric Inversion for Relaxation Models

Corresponding author: Siddharth Misra (misra@ou.edu)

Intended for publication in the Journal of Applied Geophysics
