

Accepted Manuscript

Soil classification for seismic site effect using MASW and ReMi methods: A case study from western Anatolia (Dikili -İzmir)

Savaş Karabulut

PII: S0926-9851(17)30594-3
DOI: doi:[10.1016/j.jappgeo.2018.01.011](https://doi.org/10.1016/j.jappgeo.2018.01.011)
Reference: APPGEO 3410

To appear in: *Journal of Applied Geophysics*

Received date: 19 June 2017
Revised date: 11 January 2018
Accepted date: 12 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Soil Classification for Seismic Site Effect Using MASW and ReMi methods; A Case
study from Western Anatolia (Dikili -İzmir)**
