Target-oriented imaging of hydraulic fractures by applying the staining algorithm for downhole microseismic migration

Ye Lin, Haijiang Zhang, Xiaofeng Jia

PII: S0926-9851(17)30321-X

DOI: <https://doi.org/10.1016/j.jappgeo.2018.01.024>

Reference: APPGEO 3423

To appear in:

Received date: 13 April 2017

Revised date: 20 December 2017

Please cite this article as: Ye Lin, Haijiang Zhang, Xiaofeng Jia , Target-oriented imaging of hydraulic fractures by applying the staining algorithm for downhole microseismic migration. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Appgeo(2017), <https://doi.org/10.1016/j.jappgeo.2018.01.024>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
