Determination of Cenozoic sedimentary structures using integrated geophysical surveys: A case study in the Barkol Basin, Xinjiang, China

Kai Sun, Chao Chen, Jinsong Du, Limin Wang, Binhua Lei

PII: S0926-9851(17)30462-7
DOI: doi:[10.1016/j.jappgeo.2017.10.015](https://doi.org/10.1016/j.jappgeo.2017.10.015)
Reference: APPGEO 3361

To appear in: *Journal of Applied Geophysics*

Received date: 8 May 2017
Revised date: 29 September 2017
Accepted date: 30 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Determination of Cenozoic sedimentary structures using integrated geophysical surveys: A case study in the Barkol Basin, Xinjiang, China
