

## Accepted Manuscript

Paleomagnetism of a well-dated marine succession in South China: A possible Late Cambrian true polar wander (TPW)

Wen-Jun Jiao, Yong-Xiang Li, Zhen-Yu Yang

PII: S0031-9201(17)30190-5  
DOI: <https://doi.org/10.1016/j.pepi.2018.01.009>  
Reference: PEPI 6127

To appear in: *Physics of the Earth and Planetary Interiors*

Received Date: 3 June 2017  
Revised Date: 3 December 2017  
Accepted Date: 12 January 2018

Please cite this article as: Jiao, W-J., Li, Y-X., Yang, Z-Y., Paleomagnetism of a well-dated marine succession in South China: A possible Late Cambrian true polar wander (TPW), *Physics of the Earth and Planetary Interiors* (2018), doi: <https://doi.org/10.1016/j.pepi.2018.01.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Paleomagnetism of a well-dated marine succession in South China:  
A possible Late Cambrian true polar wander (TPW)**
