Changes in Greenland ice bed conditions inferred from seismology

Genti Toyokuni, Hiroshi Takenaka, Ryota Takagi, Masaki Kanao, Seiji Tsuboi,
Yoko Tono, Dean Childs, Dapeng Zhao

PII: S0031-9201(17)30244-3
DOI: <https://doi.org/10.1016/j.pepi.2017.10.010>
Reference: PEPI 6099

To appear in: *Physics of the Earth and Planetary Interiors*

Received Date: 12 August 2017
Revised Date: 25 October 2017
Accepted Date: 25 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Changes in Greenland ice bed conditions inferred from seismology
