Discrete element simulation of the dynamic response of a dip slope under shaking table tests

Cheng-Han Lin, Hung-Hui Li, Meng-Chia Weng

PII: S0013-7952(17)31405-9
DOI: doi:[10.1016/j.enggeo.2018.07.005](https://doi.org/10.1016/j.enggeo.2018.07.005)
Reference: ENGEO 4884
To appear in: *Engineering Geology*
Received date: 25 September 2017
Revised date: 26 June 2018
Accepted date: 3 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Discrete element simulation of the dynamic response of a dip slope under shaking table tests
