Effect of degree of saturation on the unconfined compressive strength of natural stiff clays with consideration of air entry value

Feng Zhang, Yujun Cui, Lingling Zeng, Jean-Charles Robinet, Nathalie Conil, Jean Talandier

PII: S0013-7952(17)31478-3
DOI: doi:[10.1016/j.enggeo.2018.02.013](https://doi.org/10.1016/j.enggeo.2018.02.013)
Reference: ENGEO 4771
To appear in: *Engineering Geology*
Received date: 11 October 2017
Revised date: 18 February 2018
Accepted date: 19 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effect of degree of saturation on the unconfined compressive strength
of natural stiff clays with consideration of air entry value**
