Triaxial rheological property of sandstone under low confining pressure

Lu Cong, Xinli Hu

PII: S0013-7952(17)30533-1  
DOI: [doi:10.1016/j.enggeo.2017.10.005](https://doi.org/10.1016/j.enggeo.2017.10.005)  
Reference: ENGEO 4670  
To appear in: *Engineering Geology*  
Received date: 2 April 2017  
Revised date: 13 September 2017  
Accepted date: 6 October 2017

Please cite this article as: Lu Cong, Xinli Hu , Triaxial rheological property of sandstone under low confining pressure. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Enggeo(2017), doi:[10.1016/j.enggeo.2017.10.005](https://doi.org/10.1016/j.enggeo.2017.10.005)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Triaxial Rheological Property of Sandstone under Low Confining Pressure

Lu Cong<sup>1</sup>, Xinli Hu<sup>1\*</sup>

1. Faculty of Engineering, China University of Geosciences, Hubei 430074, China
