Simulation of weathered profiles coupled with multivariate block-support simulation of the Puma nickel laterite deposit, Brazil

Mario de Freitas Silva, Roussos Dimitrakopoulos

PII: S0013-7952(16)30420-3
DOI: doi: [10.1016/j.enggeo.2016.09.013](https://doi.org/10.1016/j.enggeo.2016.09.013)
Reference: ENGEO 4386

To appear in: *Engineering Geology*

Received date: 27 September 2015
Revised date: 25 September 2016
Accepted date: 29 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Simulation of weathered profiles coupled with multivariate block-support simulation of the Puma Nickel Laterite Deposit, Brazil
