Topological methods for genomics: present and future directions

Pablo G. Cámara

PII: S2452-3100(16)30027-0

DOI: [10.1016/j.coisb.2016.12.007](https://doi.org/10.1016/j.coisb.2016.12.007)

Reference: COISB 7

To appear in: *Current Opinion in Systems Biology*

Please cite this article as: Cámara PG, Topological methods for genomics: present and future directions, *Current Opinion in Systems Biology* (2017), doi: 10.1016/j.coisb.2016.12.007.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Topological methods for genomics: present and future directions
