Editorial

The posterior cerebellum, a new organ at risk?

Daniëlle B.P. Eekers, Lieke in 't. Ven, Sabine Deprez, Linda Jacobi, Erik Roelofs, Ann Hoeben, Philippe Lambin, Dirk de Ruyscher, Esther G.C. Troost

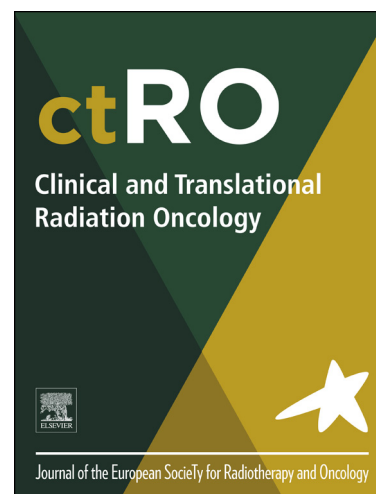

PII: S2405-6308(17)30076-9  
DOI: <https://doi.org/10.1016/j.ctro.2017.11.010>  
Reference: CTRO 70

To appear in: *Clinical & Translational Radiation Oncology*

Received Date: 28 September 2017  
Revised Date: 21 November 2017  
Accepted Date: 21 November 2017

Please cite this article as: D.B.P. Eekers, L.i.a. Ven, S. Deprez, L. Jacobi, E. Roelofs, A. Hoeben, P. Lambin, D. de Ruyscher, E.G.C. Troost, The posterior cerebellum, a new organ at risk?, *Clinical & Translational Radiation Oncology* (2017), doi: <https://doi.org/10.1016/j.ctro.2017.11.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
