

Accepted Manuscript

Gut microbiota, fatty liver disease, and hepatocellular carcinoma

Huikuan Chu, Brandon Williams, Bernd Schnabl

PII: S2542-5684(18)00004-1

DOI: [10.1016/j.livres.2017.11.005](https://doi.org/10.1016/j.livres.2017.11.005)

Reference: LIVRES 37

To appear in: *Liver Research*

Received Date: 24 August 2017

Revised Date: 31 October 2017

Accepted Date: 7 November 2017

Please cite this article as: Chu H, Williams B, Schnabl B, Gut microbiota, fatty liver disease, and hepatocellular carcinoma, *Liver Research* (2018), doi: 10.1016/j.livres.2017.11.005.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Review Article

Gut microbiota, fatty liver disease, and hepatocellular carcinoma[☆]
