Intravenous fluids: effects on renal outcomes

D.J. McLean, A.D. Shaw

PII: S0007-0912(17)54093-3

DOI: 10.1016/j.bja.2017.11.090

Reference: BJA 77

To appear in: British Journal of Anaesthesia

Received Date: 20 September 2017

Revised Date: 17 November 2017

Accepted Date: 17 November 2017

Please cite this article as: McLean D, Shaw A, Intravenous fluids: effects on renal outcomes, *British Journal of Anaesthesia* (2018), doi: 10.1016/j.bja.2017.11.090.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Intravenous fluids: effects on renal outcomes
