Permafrost degradation in a warmer Earth: challenges and perspectives

M. Oliva, M. Fritz

PII: S2468-5844(17)30035-1

DOI: 10.1016/j.coesh.2018.03.007

Reference: COESH 33

To appear in: Current Opinion in Environmental Science & Health

Received Date: 23 January 2018
Revised Date: 15 March 2018
Accepted Date: 22 March 2018

Please cite this article as: Oliva M, Fritz M, Permafrost degradation in a warmer Earth: challenges and perspectives, *Current Opinion in Environmental Science & Health* (2018), doi: 10.1016/j.coesh.2018.03.007.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

#### ACCEPTED MANUSCRIPT
