This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Historical buildings need to preserve their key testimonial knowledge
- Tailored retrofit strategies have been investigated and implemented
- Examples in historical buildings are classified
- The use of energy efficiency and the integration of renewable energies are included
- HVAC, and renewable energies such as solar and geothermal are used
