This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

New evidence on national culture and bank capital structure

Mamiza Haq^{a*}, Daniel Hu^a, Robert Faff^a and Shams Pathan^a,

^a *UQ Business School, The University of Queensland, Brisbane, Queensland 4072, Australia.*

Acknowledgements

We thank Balasingham Balachandran [Special Issue Editor, PBF], anonymous reviewer, Peter Clarkson, Charles Littrell, Murillo Campello, Anis Samet, Harald Scheule, Teri Yohn, Necmi Avkiran, conference and seminar participants at the 2015 UN DESA and Bangladesh Bank Joint Conference, 2016 IFABS Barcelona Conference and The University of Queensland for their helpful comments. In the very formative stages of developing this research idea, our thinking was greatly assisted by completing the “pitching template” created by Faff (2015a, 2015b). Finally, Shams Pathan gratefully acknowledges the research supports received under the Australian Research Council Discovery Early Career Research Award (ARC DECRA) # DE140100253. The authors are responsible for any remaining errors.
