Familiarity with social sounds alters c-Fos expression in auditory cortex and interacts with estradiol in locus coeruleus

Amielle Moreno, Ankita Gumaste, Geoff K. Adams, Kelly K. Chong, Michael Nguyen, Kathryn N. Shepard, Robert C. Liu

PII: S0378-5955(17)30591-9

DOI: [10.1016/j.heares.2018.06.020](https://doi.org/10.1016/j.heares.2018.06.020)

Reference: HEARES 7588

To appear in: *Hearing Research*

Received Date: 15 December 2017

Revised Date: 21 June 2018

Accepted Date: 26 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Familiarity with social sounds alters c-Fos expression in auditory cortex and interacts with estradiol in locus coeruleus**
