Title: Organic electrolyte hybridized ZnO as the electron transport layer for inverted polymer solar cells

Authors: Dong Geun Kim, Youn Hwan Kim, Ratna Dewi Maduwu, Ho Cheol Jin, Doo Kyung Moon, Joo Hyun Kim

PII: S1226-086X(18)30201-6
DOI: <https://doi.org/10.1016/j.jiec.2018.04.026>
Reference: JIEC 3967

To appear in:

Received date: 14-2-2018
Revised date: 9-4-2018
Accepted date: 20-4-2018

Please cite this article as: Dong Geun Kim, Youn Hwan Kim, Ratna Dewi Maduwu, Ho Cheol Jin, Doo Kyung Moon, Joo Hyun Kim, Organic electrolyte hybridized ZnO as the electron transport layer for inverted polymer solar cells, Journal of Industrial and Engineering Chemistry <https://doi.org/10.1016/j.jiec.2018.04.026>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Organic Electrolyte Hybridized ZnO as the Electron Transport Layer for Inverted Polymer Solar Cells
