

## Accepted Manuscript

Contemporary Sea Level Changes from Satellite Altimetry: What have we learned? What are the new challenges?

Anny Cazenave, Hindumathi Palanisamy, Michael Ablain

PII: S0273-1177(18)30579-9  
DOI: <https://doi.org/10.1016/j.asr.2018.07.017>  
Reference: JASR 13846

To appear in: *Advances in Space Research*

Received Date: 8 May 2018  
Revised Date: 17 July 2018  
Accepted Date: 19 July 2018

Please cite this article as: Cazenave, A., Palanisamy, H., Ablain, M., Contemporary Sea Level Changes from Satellite Altimetry: What have we learned? What are the new challenges?, *Advances in Space Research* (2018), doi: <https://doi.org/10.1016/j.asr.2018.07.017>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
