

## Accepted Manuscript

Aberrant cardiolipin metabolism is associated with cognitive deficiency and hippocampal alteration in tafazzin knockdown mice

Laura K. Cole, Jin Hee Kim, Andrew A. Amoscato, Yulia Y. Tyurina, Hülya Bayır, Benyamin Karimi, Tabrez J. Siddiqui, Valerian E. Kagan, Grant M. Hatch, Tiina M. Kauppinen

PII: S0925-4439(18)30271-0  
DOI: doi:[10.1016/j.bbadis.2018.07.022](https://doi.org/10.1016/j.bbadis.2018.07.022)  
Reference: BBADIS 65192  
To appear in: *BBA - Molecular Basis of Disease*  
Received date: 30 January 2018  
Revised date: 14 June 2018  
Accepted date: 19 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Aberrant cardiolipin metabolism is associated with cognitive deficiency and hippocampal alteration in tafazzin knockdown mice**
