Title: Thiotepa Based Intensified Reduced-Intensity Conditioning Adult Double-Unit Cord Blood Hematopoietic Stem Cell Transplantation Results in Decreased Relapse Rate and Improved Survival Compared to Transplantation Following Standard Reduced-Intensity Conditioning: a Retrospective Cohort Comparison.

Author: Prashant Sharma, Daniel A. Pollyea, Clayton A. Smith, Enkhtsetseg Purev, Manali Kamdar, Bradley Haverkos, Daniel Sherbenou, Rachel Rabinovitch, Andrew Hammes, Jonathan A. Gutman

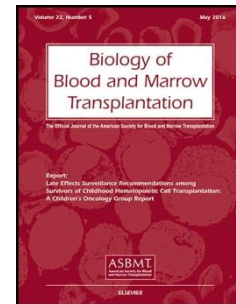

PII: S1083-8791(18)30200-3
DOI: <https://doi.org/10.1016/j.bbmt.2018.04.019>
Reference: YBBMT 55104

To appear in: *Biology of Blood and Marrow Transplantation*

Received date: 10-11-2017
Accepted date: 14-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Thiotepa based intensified reduced-intensity conditioning adult double-unit cord blood hematopoietic stem cell transplantation results in decreased relapse rate and improved survival compared to transplantation following standard reduced-intensity conditioning: a retrospective cohort comparison.

Authors: Prashant Sharma, Daniel A Pollyea, Clayton A Smith, Enkhtsetseg Purev, Manali Kamdar, Bradley Haverkos, Daniel Sherbenou, Rachel Rabinovitch, Andrew Hammes, Jonathan A Gutman.

Author affiliation: Division of Hematology, University of Colorado, Denver, United States

Abstract word count: 315

Number of tables: 1

Number of figures: 5

Total manuscript word count (excluding abstract and highlights): 4315

Keywords: cord blood transplantation; reduced intensity conditioning; intensified-RIC; thiotepa
