Exploring the mechanisms behind long noncoding RNAs and cancer

Maggie M. Balas, Aaron M. Johnson

PII: S2468-0540(17)30052-5

DOI: [10.1016/j.ncrna.2018.03.001](https://doi.org/10.1016/j.ncrna.2018.03.001)

Reference: NCRNA 33

To appear in: *Non-Coding RNA Research*

Received Date: 23 March 2018

Accepted Date: 23 March 2018

Please cite this article as: M.M. Balas, A.M. Johnson, Exploring the mechanisms behind long noncoding RNAs and cancer, *Non-Coding RNA Research* (2018), doi: 10.1016/j.ncrna.2018.03.001.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Exploring the mechanisms behind long noncoding RNAs and cancer

Maggie M. Balas^{a,b,c} and Aaron M. Johnson^{a,b,c,d}

a Molecular Biology Program; **b** Department of Biochemistry and Molecular Genetics; **c** RNA Bioscience Initiative; University of Colorado Denver Anschutz Medical Campus 12801 East 17th Ave., Aurora, CO, United States

d Corresponding Author

Keywords: lncRNA; cancer; chromatin; HOTAIR; TUG1; MEG3
