Cerebral tract integrity relates to white matter hyperintensities, cortex volume, and cognition

Stephan Seiler, Evan Fletcher, Kinsy Hassan-Ali, Michelle Weinstein, Alexa Beiser, Jayandra J. Himali, Claudia L. Satizabal, Sudha Seshadri, Charles DeCarli, Pauline Maillard, Marco Düring, M.D, Nutta-on Promjunyakul, Ph.D, Lotte G.M. Cremers, M.D

PII: S0197-4580(18)30288-4

DOI: [10.1016/j.neurobiolaging.2018.08.005](https://doi.org/10.1016/j.neurobiolaging.2018.08.005)

Reference: NBA 10341

To appear in: *Neurobiology of Aging*

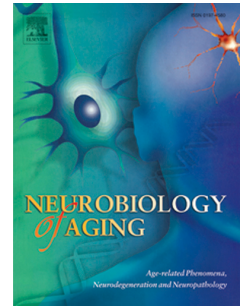

Received Date: 28 April 2018

Revised Date: 19 July 2018

Accepted Date: 3 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cerebral tract integrity relates to white matter hyperintensities, cortex volume, and cognition
