This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We study the online presale model of fresh produce from a competitive perspective.
- Impact of an online grocery entry on the existing physical store is investigated.
- We characterize pricing strategy equilibrium for the store and the online grocery.
- We identify the conditions under which the store should alter its pricing strategy.
