

Accepted Manuscript

Title: Phytoremediation of mixed contaminated soil enhanced with electric current

Authors: Claudio Cameselle, Susana Gouveia

PII: S0304-3894(18)30750-7
DOI: <https://doi.org/10.1016/j.jhazmat.2018.08.062>
Reference: HAZMAT 19686

To appear in: *Journal of Hazardous Materials*

Received date: 30-9-2017
Revised date: 1-8-2018
Accepted date: 20-8-2018

Please cite this article as: Cameselle C, Gouveia S, Phytoremediation of mixed contaminated soil enhanced with electric current, *Journal of Hazardous Materials* (2018), <https://doi.org/10.1016/j.jhazmat.2018.08.062>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Journal of Hazardous Materials

Vigo (Spain), July 31, 2018

Highlights

- Phytoremediation of mixed contaminated soil enhanced with electric current
- Claudio Cameselle and Susana Gouveia
- Electro-phytoremediation of mixed contaminated soils.
- Electrode layout influence in the distribution of electric field in soil
- Identification of the effects of the electric field in growing plants.
- Enhance electro-phytoremediation of contaminated soils with organics
