This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Structural Model of Productivity, Uncertain Demand, and Export Dynamics*

Shengyu Li[‡]

*I gratefully acknowledge the guidance, support, and encouragement from my dissertation committee at the Pennsylvania State University: Mark Roberts, James Tybout, Paul Grieco, and Spiro Stefanou. I appreciate valuable comments and suggestions from Theodore Papageorgiou, Felix Tintelnot, Stephen Yeaple, and Hongsong Zhang. I thank the participants at the 12th Annual International Industrial Organization Conference, the 2014 Conference of the European Association for Research in Industrial Economics, the 2017 Royal Economic Society Conference, as well as seminar participants at Copenhagen Business School, Durham University, Liverpool University, and Royal Holloway for very helpful comments. This paper also benefited greatly from the insightful comments of the editor and anonymous referees. All errors are the author's own responsibility.

[‡]Business School, The University of New South Wales, NSW Sydney, 2052, Australia.
