(Yb³⁺,Er³⁺) co-doped TiO₂/Ag₃PO₄ hybrid photocatalyst with enhanced activity for photodegradation of phenol

Yuan Liu, Wenguang Wang, Mingzhi Si, Yanfang Yu, Haiyan Zhang

PII: S0169-4332(18)32323-7
DOI: <https://doi.org/10.1016/j.apsusc.2018.08.188>
Reference: APSUSC 40225

To appear in: *Applied Surface Science*

Received Date: 12 June 2018
Revised Date: 21 August 2018
Accepted Date: 21 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
