Computational study of acid blue 80 dye adsorption on low cost agricultural Algerian olive cake waste: Statistical mechanics and molecular dynamic simulations

Khadra–Hanane Toumi, Manel Bergaoui, Mohamed Khalfaoui, Yacine Benguerba, Alessandro Erto, Guilherme L. Dotto, Abdeltif Amrane, Saci Nacef, Barbara Ernst

PII: S0167-7322(18)33472-X
DOI: doi:[10.1016/j.molliq.2018.08.115](https://doi.org/10.1016/j.molliq.2018.08.115)
Reference: MOLLIQ 9560
To appear in: *Journal of Molecular Liquids*
Received date: 6 July 2018
Revised date: 19 August 2018
Accepted date: 21 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
