orders* (2018), doi: [10.1016/j.nmd.2018.05.004](https://doi.org/10.1016/j.nmd.2018.05.004)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service  
to our customers we are providing this early version of the manuscript. The manuscript will undergo  
copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please  
note that during the production process errors may be discovered which could affect the content, and  
all legal disclaimers that apply to the journal pertain.

## Highlights

- A workshop has been held on nutrition in Duchenne muscular dystrophy
- Nutrition and metabolism play an important role in DMD pathology
- Discussion of existing literature on nutritional and metabolic aspects of DMD
- Setting priorities and Standard Operating Procedures (SOPs) for future research
- Establishment of a task force to improve nutritional guidelines and information
