This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# On-site 3D Printing and Pre-operative Adaptation Decreases Operative Time for Mandible Fracture Repair

Short Title: On-site 3D Printing for Mandible Fractures

Brett J King, DDS<sup>1\*</sup>, Earl Peter Park, DMD, MD<sup>2</sup>, Brian J Christensen, DDS, MD<sup>3</sup>, and Raman Danrad, MD<sup>4</sup>

<sup>1</sup>Assistant Professor, Department of Oral & Maxillofacial Surgery, Louisiana State University Health Sciences Center. <sup>2</sup>Maxillofacial Oncologic and Reconstructive Surgery Fellow, Department of Oral & Maxillofacial Surgery, University of Alabama at Birmingham. <sup>3</sup>Resident, Department of Oral & Maxillofacial Surgery, Louisiana State University Health Sciences Center. <sup>4</sup>Associate Professor, Department of Radiology, Louisiana State University Health Sciences Center.
