

Accepted Manuscript

Title: High-Resolution Magnetic Resonance Vessel Wall Imaging of Chronic Intracranial Internal Carotid Artery Occlusion

Author: Xiang Yan Chen Wen Jie Yang Chiu Wing Chu Ka Sing Wong Thomas Wai Hong Leung

PII: S0150-9861(17)30359-0
DOI: <https://doi.org/doi:10.1016/j.neurad.2018.04.005>
Reference: NEURAD 730

To appear in: *Journal of Neuroradiology*

Received date: 28-6-2017
Accepted date: 21-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

High-Resolution Magnetic Resonance Imaging in Chronic Intracranial Internal Carotid Artery Occlusion

E-mail: fionachen@cuhk.edu.hk

Author contribution: W.J. Yang and L. Zheng: analysis of data, writing of draft manuscript. X.Y. Chen: study concept and design, interpretation of data, revision of draft manuscript. W.C. Chu and K.S. Wong: conceptualization of the study, acquisition and interpretation of data, discussion of case. T.W.H Leung: editing of draft manuscript.

Study funding: No targeted funding reported.

Conflict of Interest and Disclosure: None.

Keywords: High-resolution Magnetic Resonance Imaging (HRMRI), Intracranial arterial stenosis, atrial fibrillation, Intracranial internal carotid artery (ICA),

Abbreviation

MRI: Magnetic Resonance Imaging

MRA: Magnetic Resonance Angiography

HDMRI: High-Resolution Magnetic Resonance Imaging
