16 Suggested running title: Lung recruitment in dogs during laparoscopy

17 Acknowledgements: English language editing was provided by Barbara Every, ELS, of BioMedical  
18 Editor

19 Authors' contributions: FS, CDB and SG contributed to the conception of the study and its design  
20 and to the statistical analysis of the data and their interpretation. FS and CDB were responsible for  
21 the preparation of the manuscript. PC, AG, LL, AMC and RO performed the clinical procedures  
22 and the monitoring of the patients. All authors contributed to the critical revision of the paper and  
23 approved the final manuscript.

24 The authors declare no conflict of interest

25 This research did not receive any specific grant from funding agencies in the public, commercial, or  
26 not-for-profit sectors
