Thin layer films of copper hexacyanoferrate: Structure identification and analytical applications

Michele Ventura, Angelo Mullaliu, Diana Elena Ciurduc, Sergio Zappoli, Gabriele Giuli, Dino Tonti, Eduardo Enciso, Marco Giorgetti

PII: S1572-6657(18)30581-2
DOI: doi:[10.1016/j.jelechem.2018.08.044](https://doi.org/10.1016/j.jelechem.2018.08.044)
Reference: JEAC 12583
To appear in: *Journal of Electroanalytical Chemistry*
Received date: 25 July 2018
Revised date: 30 August 2018
Accepted date: 31 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thin layer films of copper hexacyanoferrate: structure identification and analytical applications
