Computational Determination of Ring Opening Polymerization Reaction Mechanism of α -Angelica Lactone

Sıla Gümü ştaş, Mehmet Balcan, Armağan Kinal

PII: S2210-271X(18)30511-5
DOI: <https://doi.org/10.1016/j.comptc.2018.08.022>
Reference: COMPTC 12337

To appear in: *Computational & Theoretical Chemistry*

Received Date: 6 December 2017
Revised Date: 16 February 2018
Accepted Date: 31 August 2018

Please cite this article as: S. Gümü ştaş, M. Balcan, A. Kinal, Computational Determination of Ring Opening Polymerization Reaction Mechanism of α -Angelica Lactone, *Computational & Theoretical Chemistry* (2018), doi: <https://doi.org/10.1016/j.comptc.2018.08.022>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Computational Determination of Ring Opening Polymerization Reaction

Mechanism of α -Angelica Lactone

Sıla GÜMÜŞTAŞ, Mehmet BALCAN, Armağan KINAL*
