This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Update on Carotid Stent Angioplasty - Indications and Controversies**

**Guest Editor: Carlo Setacci MD**

## **The History of Proximal Carotid Protection and Flow Reversal to Prevent Stent Angioplasty Embolization**

Authors: Juan Parodi, M.D.<sup>1</sup>, Mark C. Bates, M.D., D.Sc. (Hon)<sup>2</sup>, Takao Ohki, M.D.,  
Ph.D.<sup>3</sup> and Claudio Schönholz M.D.<sup>4</sup>

1. Honorary professor of surgery University of Buenos Aires, Buenos Aires Argentina. Adjunct professor of Research, University of Michigan, USA
2. Professor of Medicine and Surgery. West Virginia University School of Medicine, Senior Scientist for Cardiovascular Research, CAMC Health Education and Research Institute, Co-director CAMC Vascular Center of Excellence. Charleston West Virginia, USA
3. Professor of Surgery, Chair Department of Surgery, Jikei University School of Medicine, Tokyo, Japan
4. Professor of Interventional Radiology. Medical University of South Carolina, Charleston South Carolina, USA

### **Key words:**

Carotid stent angioplasty, Proximal protection, Embolic protection, Flow reversal
