### Book Review Index — Volume 77

Linstone, H.A., *Start-up nation: The story of Israel's economic miracle*, (D. Senor and S. Singer), 524

Sharma, K., *Bringing in the Future: Strategies for Farsightedness and Sustainability in Developing Countries*, (W. Ascher), 172

### Subject Index — Volume 77

Adaptive policies, addressing deep uncertainty, special section, 77:917  
seven tools for creation, 77:924  
Adaptive policy frameworks, responding to climate and other change processes in complex contexts, Ganga Basin, 77:975  
Adaptive policy responses, identification and evaluation, climate change for water management agencies in the American West, 77:960  
Adaptive transport policies, handling deep uncertainty, 77:940  
ADVIAN®, a new classification approach for the rating of impact factors, 77:110  
Agent-based modeling, dismantling terrorist networks, 77:1014

Agent-based perspective, modeling technological innovation risks of an entrepreneurial team using system dynamics, 77:857  
Agent-based simulation, a multi-stage race model with strategic interaction, 77:578  
Agri-food systems, research in India, integration with nanotechnology, a conceptual framework, 77:639  
Agricultural society, theoretical and historical perspectives, 77:479  
Agriculture and food systems, 'futures study' club, collectively foreseeing future issues, 77:1540  
Ansoff, strategic planning, strategic management, strategic foresight: the seminal work, 77:1485

- ARIMA and diffusion methods, forecasting with limited data, 77:558
- Assessment of social implications, nanotechnologies in Japan, problem structuring method based on interview surveys and cognitive maps, 77:615
- Bakhmina.ru and Ingushetiya.ru, cyberprotest in contemporary Russia, 77:1179
- Battery technology, for electric and hybrid vehicles, expert views about prospects, 77:1139
- Biomass combustion in the Netherlands, influence of perceived uncertainty on entrepreneurial action in the transition to a low-emission energy infrastructure, 77:1222
- Bounded rationality, application to climate-energy problems, 77:76
- Broadband gap, from the penetration divide to the quality divide, 77:816
- Broadband, profiting in the info-coms industry, lessons and new considerations, 77:265
- Bringing in the future, strategies for farsightedness and sustainability in developing countries, 77:172
- Building-materials industry, categorical modeling approach to analyzing new product adoption, 77:662
- China and Taiwan, launching strategy for electric vehicles, 77:831
- Clean development mechanism, Kyoto, 77:1391
- Clean production, using scenarios for roadmapping, 77:1061
- Climate, challenges facing development of adaptive policy frameworks in the Ganga Basin, 77:975
- Climate change, identifying and evaluating adaptive policy responses, for water management agencies in the American West, 77:960
- Climate changes, operationalising a resilience approach to adapting an urban delta, 77:987
- Climate-energy problems, policy instruments for evolution of bounded rationality, 77:76
- Cognitive maps, assessment of social implications of nanotechnologies in Japan 77:615
- Computer-assisted approach to scenario discovery, thinking inside the box, 77:34
- Commercialization gap, between science and technology – case study of a solar cell, 77:1147
- Conjoint and WTP analyses, future mobile phones for digital convergence, 77:457
- Consumer WTP, effects of income and social awareness, 77:587
- Converging industries, anticipation using publicly available data, 77:385
- Core technology structure, patent information, 77:1167
- Corporate organizations, handling the effect and response uncertainty of technology and social drivers of change, 77: 1527
- Crises, depressions, expansions, global analysis and secular trends, 77:739
- Cross-impact analysis, R&D and patent-based for identifying relationships between technologies, 77:1037
- Cyber-infrastructure, socio-technical framework, implication for Korean cyber-infrastructure vision, 77:783
- Cyberprotest, contemporary Russia, the cases of Ingushetiya.ru and Bakhmina.ru, 77:1179
- Deep uncertainty, addressing using adaptive policies, special section, 77:917
- Delphi study, industry- and company-level factors influencing the development of the forest energy business, 77:94
- Demand-supply coevolution, policy analysis for unlocking and system transitions, 77:297
- Democratization, driving force for technological and economic change, 77:248
- Discontinuous innovation, capability accumulation in latecomer natural resource-processing firms, 77:1090
- Division trajectories of emerging sciences, Malaysian R&D system, 77:1109
- Drug discovery and development, shifting emphasis towards personalized medicine, 77:203
- Dual analytic hierarchy process, to prioritize emerging technologies, 77:566
- Economic long waves, the asymmetric path, 77:730
- Effects of technical innovation, market value of the US semiconductor industry, 77:1322
- Electric and hybrid vehicles, battery technology, expert views about prospects for advancement, 77:1139
