SUBJECT INDEX*

- Abdominal pain
 intestinal, in gastrointestinal vasculitis, 431-441
- Abortion, spontaneous
 in wives of men with familial Mediterranean fever treated with colchicine, 549-552
- Acute abdomen
 intestinal ischemia as first sign of vasculitis, 431-441
- Acute renal failure
 intravenous immunoglobulin for, nephrotoxicity of, 593-601
- Acute rheumatic fever
 HLA-DRB1 in post-streptococcal reactive arthritis and, 553-558
- Adalimumab
 benefit-risk profile of TNF-blocking agents, 819-836
 clinical pharmacokinetics, S1-12-S1-18
 differentiating efficacy of TNF inhibitors, S1-7-S1-11
 effect on T lymphocytes, S1-23-S1-27
 immunogenicity profile, clinical implications of, S1-19-S1-22
- Aerobic exercise
 for osteoarthritis rehabilitation, S2-64
- Alaskans, Native
 rheumatoid arthritis in, 662-667
- Alternative medicine. *See* Complementary and alternative medicine.
- American Indians
 rheumatoid arthritis in, 662-667
- Aneurysm, coronary
 in adult Kawasaki disease, 785-792
- Ankylosing spondylitis
 cardiovascular risk profile of patients with, 585-592
 differentiating efficacy of TNF inhibitors in, S1-9
 diverse effects of infliximab and etanercept on T lymphocytes in, S1-23-S1-27
 rheumatoid involvement of cervical spine, history of nomenclature, 637-641
 role of tumor necrosis factor inhibition in, 668-677
- Antibiotics
 for *Mycobacterium chelonae* tenosynovitis of hand, 617-622
- Antibodies
 to 68-kd inner-ear antigen, in autoimmune sensorineural hearing loss, 538-545
- Antigens
 68-kd inner-ear, antibodies to in autoimmune sensorineural hearing loss, 538-543
 targeted by autoantibodies in SLE
 blood cells, endothelial cells, and nervous system, 520-522
 cell membrane, 515-516
 cytoplasmic, 512-514
 matrix protein, 525
 miscellaneous, 526-527

- nuclear, 502-511
- phospholipid-associated, 517-518
- plasma protein, 523-524
- Antineutrophil cytoplasmic antibodies (ANCA)
 - ANCA-associated systemic vasculitis and glomerulonephritis, 597-598
- Antirheumatic drugs, disease-modifying
 - methotrexate, for rheumatoid arthritis, 465-483
- Apoptosis
 - autoantibodies detected in systemic lupus erythematosus, 431-441
 - diverse effects of infliximab and etanercept on T lymphocytes, S1-23–S1-27
- Arabs
 - spectrum of MEFV gene mutations in, 813-818
- Arthritis
 - differentiating efficacy of TNF inhibitors in inflammatory, S1-7–S1-11
 - health-related quality of life in veterans with, 755-765
 - herbal medications commonly used in, 773-784
 - osteoarthritis
 - in postmenopausal women, 623-630
 - new era in (Supplement 2), S2-1–S2-77
 - of knee and hip, social-cultural variations in domains for health-related quality of life in, 793-804
 - post-streptococcal reactive, and acute rheumatic fever in children, 553-558
 - psoriatic
 - cardiovascular risk profile of patients with, 585-592
 - classification of (Editorial), 571-572
 - comparison of classification criteria for diagnosis of, 575-584
 - rheumatoid
 - ayurvedic medicine for, 705-713
 - need for scientifically sound studies, 703-704 (Editorial)
 - benefit-risk profile of TNF-blocking agents, 819-836
 - epidemiology
 - of development of lymphoma in patients with, S1-28–S1-30
 - in American Indians and Native Alaskans, 662-667
 - links with Epstein-Barr virus, lymphoma, and TNF antagonism in, S1-31–S1-33
 - methotrexate for, 465-483
 - of cervical spine and atlas, history of nomenclature, 637-641
 - palisaded neutrophilic and granulomatous dermatitis in, 610-616
 - patient self-report case-finding method for, 484-499
 - septic
 - in adults caused by *Streptococcus pneumoniae*, 559-569
 - Veterans Arthritis Quality of Life Study, 755-765
- Arthroscopy
 - role in surgical approach to osteoarthritis, S2-53–S2-57
- Ayurvedic medicine
 - for rheumatoid arthritis, 705-713
 - need for scientifically sound studies, 703-704 (Editorial)
- Assistive devices
 - for osteoarthritis rehabilitation, S2-67–S2-68
- Atlas
 - of cervical spine, rheumatoid arthritis of, history of nomenclature, 637-641
- Atypical mycobacteria
 - Mycobacterium chelonae* tenosynovitis of hand, 617-622
- Autoantibodies
 - detected in systemic lupus erythematosus, 501-537
- Autoimmune diseases
 - intraocular inflammation in, 602-609
 - TNF pathophysiology in murine models of, S1-3–S1-6
- Autoimmune disorders

- Biliary tract
 - severe involvement of, in systemic sclerosis, 689-702
- Biologic agents
 - for intraocular inflammation in autoimmune diseases, 602-609
- Blood cell system antigens
 - targeted by autoantibodies in SLE, 520-522
- Bone density
 - as risk factor for osteoarthritis, S2-31
- Bone marrow suppression
 - by methotrexate, in rheumatoid arthritis, 465-483
- Bone mineral density
 - osteoporosis in scleroderma, 678-682
- Bosentan
 - for pulmonary arterial hypertension, 442-453
- Calcinosis
 - in rheumatic diseases, 805-812
- CAM. *See* Complementary and alternative medicine.
- Candidate gene studies
 - in osteoarthritis, S2-15–S2-18
- Cardiac abnormalities
 - echocardiographic alterations in systemic sclerosis, 721-727
- Cardiovascular disease
 - risk profile for, in patients with spondylarthropathies, 585-592
- Case-finding method
 - for rheumatoid arthritis, 484-499
- Cathepsin B
 - in osteoarthritis, S2-24–S2-28
- Cell membrane antigens
 - targeted by autoantibodies in SLE, 515-516
- Cell–Extracellular matrix interactions
 - and metabolic activity of chondrocytes in osteoarthritis, S2-9–S2-12
- Central nervous system disease
 - in primary Sjögren's syndrome, magnetic resonance imaging of, 623-630
- Cervical spine
 - rheumatoid arthritis of atlas and, history of nomenclature, 637-641
- Chondrocytes
 - cathepsin B and, in osteoarthritis, S2-24–S2-28
 - metabolic activity in osteoarthritis, S2-9–S2-12
- Classification
 - of psoriatic arthritis
 - comparison of criteria for diagnosis of, 575-584
 - Editorial, 571-572
