

Instructions to authors

Aims and Scope

Physics Letters B ensures the rapid publication of letter-type communications in the fields of Nuclear Physics, Particle Physics and Astrophysics. Articles should influence the physics community significantly.

Submission

Electronic submission is strongly encouraged. The electronic file, accompanied by a covering message, should be e-mailed to one of the Editors indicated below. If electronic submission is not feasible, submission in print is possible, but it will delay publication. In the latter case manuscripts (one original + two copies), accompanied by a covering letter, should be sent to one of the following Editors:

L. Alvarez-Gaumé, Theory Division, CERN, CH-1211 Geneva 23, Switzerland, E-mail address: Luis.Alvarez-Gaume@CERN.CH

Theoretical High Energy Physics (General Theory)

J.-P. Blaizot, ECT*, Strada delle Tabarelle, 266, I-38050 Villazzano (Trento), Italy, E-mail address: plb@SPHT.SACLAY.CEA.FR

Theoretical High Energy Physics

The authors should indicate in which of the following four sections they would like to see their article published:

Astrophysics & Cosmology, covered by L. Alvarez-Gaumé, M. Cvetič and W. Haxton.

Experiments, covered by M. Doser, D.F. Geesaman, V. Metag, L. Rolandi, W.-D. Schlatter and H. Weerts.

Phenomenology, covered by J.-P. Blaizot, M. Cvetič, H. Georgi, G.F. Giudice, N. Glover, W. Haxton and T. Yanagida.

Theory, covered by L. Alvarez-Gaumé, J.-P. Blaizot, M. Cvetič, H. Georgi, G.F. Giudice, N. Glover, W. Haxton and T. Yanagida.

For submissions in High Energy Physics authors are encouraged to provide the number of their Los Alamos preprint to the Physics Letters B Editor at the moment of submission.

Original material. By submitting a paper for publication in Physics Letters B the authors imply that the material has not been published previously nor has been submitted for publication elsewhere and that the authors have obtained the necessary authority for publication.

Refereeing. Submitted papers will be refereed and, if necessary, authors may be invited to revise their manuscript. If a submitted paper relies heavily on unpublished material, it would be helpful to have a copy of that material for the use of the referee.

Publication speed

The Editors and Publisher cooperate closely to ensure minimal publication delays. All proofreading will be done by the Publisher and proofs are *not* sent to the author(s). In order to keep delays to a minimum it is of utter importance for the author(s) closely to observe the guidelines given in the “Preparation of Manuscripts” below before submission of the manuscript and to supply an E-mail address and/or telefax number of the corresponding author.

Preparation of manuscripts

The following requirements as regards presentation of the manuscript should be met:

- (1) **Manuscript:** All manuscripts should be written in good English. The original typescript should be typed on one side of the paper, with double spacing and a wide margin. Instead of the original typescript, a copy of high quality (not a carbon copy) is also acceptable. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, Classification codes and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables. The name, complete postal address, telephone and fax numbers and the E-mail address of at least the corresponding author should be given on the first page of the manuscript. The title page should contain title, author(s), address(es) and abstract. The main text should start on a new page. All pages should be numbered.
- (2) **Length:** The total length of the paper should preferably not exceed six journal pages, equivalent to ten typewritten pages with double spacing, including the list of authors, abstract, references, figure captions and three figures. In the case that more figures are required, the text should be shortened accordingly.
- (3) **Title:** The title should be brief and such that it conveys to the informed reader the particular nature of the contents of the paper.
- (4) **Address:** The name(s) of the author(s) and the name and address of the institute where the research work was done should be indicated on the manuscript. The name of the author to whom correspondence is to be addressed should be underlined and an E-mail address and/or a telefax number supplied.
- (5) **Abstract:** An abstract of less than 60 words is required. It should contain the keywords of the paper as well as the essence of the results achieved.
- (6) **Classification codes and keywords:** Supply one to four classification codes (PACS and/or MSC) and up to six keywords of your own choice that describe the content of your article in more detail.
- (7) **Formulae:** Displayed formulae should be numbered and typed or clearly and unambiguously written by hand. Symbols requiring bold-face type, like vectors, etc., should be identified properly in the margin of the manuscript. Long equations should be avoided as much as possible by introduction of suitable abbreviations of component expressions. Special attention should be paid to symbols that can easily be misread, such as i (lower case), I (cap.), 1 (el), 1 (one), $'$ (prime), o (lower case), O (cap.), 0 (zero), $^\circ$ (degree), u, v (vee), ν (Greek nu), V (cap.), $x, \times, X, z, Z, p, P, \rho$ (Greek rho), etc.
- (8) **Footnotes:** The footnotes may be typed at the end of the page on which they are alluded to, or at the end of the paper, or on a separate sheet. *Please do not mix footnotes and references.*
