## Accepted Manuscript

Dependence of mechanism to thermodynamics in electrochemical oxidation of acetaminophen in the presence of different nucleophiles

Hadi Beiginejad

PII:	S1572-6657(18)30534-4
DOI:	doi:10.1016/j.jelechem.2018.08.004
Reference:	JEAC 12543
To appear in:	Journal of Electroanalytical Chemistry
Received date:	13 June 2018
Revised date:	25 July 2018
Accepted date:	5 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
