3D human brain cell models: New frontiers in disease understanding and drug discovery for neurodegenerative diseases

Paula Korhonen, Tarja Malm, Anthony R. White

PII: S0197-0186(18)30092-5

DOI: [10.1016/j.neuint.2018.08.012](https://doi.org/10.1016/j.neuint.2018.08.012)

Reference: NCI 4289

To appear in: *Neurochemistry International*

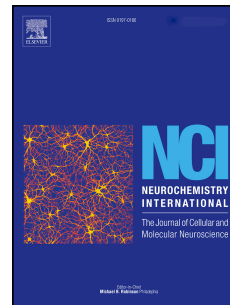

Received Date: 2 March 2018

Revised Date: 1 August 2018

Accepted Date: 31 August 2018

Please cite this article as: Korhonen, P., Malm, T., White, A.R., 3D human brain cell models: New frontiers in disease understanding and drug discovery for neurodegenerative diseases, *Neurochemistry International* (2018), doi: 10.1016/j.neuint.2018.08.012.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **3D human brain cell models: New frontiers in disease understanding and drug**
2 **discovery for neurodegenerative diseases.**
