

## Accepted Manuscript

The utility of HepaRG cells for bioenergetic investigation and detection of drug-induced mitochondrial toxicity

Laleh Kamalian, Oisin Douglas, Carol Jolly, Jan Snoeys, Damir Simic, Mario Monshouwer, Dominic P. Williams, B. Kevin Park, Amy E. Chadwick

PII: S0887-2333(18)30421-1  
DOI: doi:[10.1016/j.tiv.2018.08.001](https://doi.org/10.1016/j.tiv.2018.08.001)  
Reference: TIV 4341

To appear in: *Toxicology in Vitro*

Received date: 23 March 2018  
Revised date: 3 July 2018  
Accepted date: 5 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## The utility of HepaRG cells for bioenergetic investigation and detection of drug-induced mitochondrial toxicity
