Days alive and free as an alternative to a mortality outcome in pivotal vasopressor and septic shock trials

James A. Russell, Terry Lee, Joel Singer, Daniel De Backer, Djillali Annane

PII: S0883-9441(18)30019-4
DOI: doi:[10.1016/j.jcrc.2018.05.003](https://doi.org/10.1016/j.jcrc.2018.05.003)
Reference: YJCRC 52919

To appear in:

Please cite this article as: James A. Russell, Terry Lee, Joel Singer, Daniel De Backer, Djillali Annane , Days alive and free as an alternative to a mortality outcome in pivotal vasopressor and septic shock trials. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yjrcr(2017), doi:[10.1016/j.jcrc.2018.05.003](https://doi.org/10.1016/j.jcrc.2018.05.003)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**DAYS ALIVE AND FREE AS AN ALTERNATIVE TO A MORTALITY OUTCOME
IN PIVOTAL VASOPRESSOR AND SEPTIC SHOCK TRIALS**
