## **Accepted Manuscript**

Reply to "Mean platelet volume may not have a role in the prediction of adverse events after percutaneous coronary intervention in patients with ST-elevation myocardial infarction"

Guilherme Pinheiro Machado, Gustavo Nevese de Araujo, Marco Wainstein

PII: S0021-9150(18)31217-6

DOI: 10.1016/j.atherosclerosis.2018.07.021

Reference: ATH 15628

To appear in: Atherosclerosis

Received Date: 9 July 2018

Accepted Date: 18 July 2018

Please cite this article as: Machado GP, de Araujo GN, Wainstein M, Reply to "Mean platelet volume may not have a role in the prediction of adverse events after percutaneous coronary intervention in patients with ST-elevation myocardial infarction", *Atherosclerosis* (2018), doi: 10.1016/i.atherosclerosis.2018.07.021.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
